Office Action Summary	Application No. 10/059,083	Applicant(s) SIMPSON ET AL.	
	Examiner DAVID Y. ENG	Art Unit 2155	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 2155

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-8, 10-11, 13-17 and 19-24 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Staas (USP 6,975,419).

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Staas (USP 6,975,419) further in view of Pietrowicz (USP 6,978,313).

Claims 12 and 18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Staas (USP 6,975,419) further in view of Smyk (USP 5,751,961)

Details of the rejections have already been set forth in the last Office action. The details are incorporated herein by reference thereto.

Art Unit: 2155

In the communication filed on 1/3/2007, Applicants admitted that step 339 of Staas reads on the step of determining if a device encounters an event. Applicants contended that Staas does not teach the step of determining if the print job meets the pre-determined criterion. The claims did not specify what the event and the criterion are. The recitations "determining if a device encounters an event while processing a job and determining if the job meets a pre-determined criterion" are so broad that any two of the diamond shape determining steps shown in Figures 3A, 3B, 6A and 6B of Staas meet the limitations. The two determining steps do not constitute any patentable subject matter because they are just broad and non-specific pre-conditions for transmitting an email message to an email address. The two pre-conditions do not affect processing of a job and how the message is sent.

Applicants contended that the Examiner did not address the limitation of sending an email message. See the second last paragraph on page 3 of the last Office action. See also column 5 line 39-54, steps 459, 466, 469, 473, 476 of Figure 6A, and step 343 of Figure 3A in Staas. Figures 3A, 3B, 6A and 6B in Staas show that communication is in email via email address.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the

Art Unit: 2155

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DAVID Y. ENG whose telephone number is 571-272-3984. The examiner can normally be reached on M-F from 8AM to 3PM.
